You can look forward to this informal, and discussion-based information session with age well specialist, Jennifer Moir (EPC, CHS, CRTS). She will help answer some of the questions you may have about the best time to downsize, expected challenges and benefits, selling your home, and how to plan for a successful transition.

"Jennifer and her team helped my wife and I downsize, relocate and readjust. Her professional, courteous, efficient, and most important, caring attention to our needs was instrumental in our successful move into our new home."
